Subject: Change to AACR2 rule 5.5B1 (RDA 3.4.2.2.2) Extent of item for notated music, and Glossary definition of "Score"

ACOC supports the ALA proposal.

ACOC considers the word "score" a freely used and accepted term to describe notated music that is not in part format. Changing the definition of score to cover all notated music not in part format, will simplify and provide for a clearer physical description of musical works. The change would assist both cataloguers and users by eliminating the 'difference' between a single and multiple instrument work in this area of description.
