**SUBJECT: GMD/SMD Working Group: Proposal for Content and Carrier Terms
in RDA**

The British Library greatly appreciates the work done by the GMD/SMD Group in preparing this proposal. The fact that we do not wish to respond to the proposal in detail at this point in no way detracts from our admiration for the work that has been done. Before submitting our views on the content and carrier terms in RDA, we prefer to await the outcome of efforts currently underway with the ONIX community to develop a common framework for identifying and classifying material.
