Subject: Proposed revision of RDA chap. 6, Additional instructions for musical works and expressions

The CCC response was prepared by the Canadian Association of Music Libraries. CAML has reviewed LC’s proposed revisions and offers the following comments:

(A clean copy of CAML’s proposed revisions is appended.)

6.2.1.15.2: Agree to reinstate exception. The phrase “(other than music, see 6.15.1)” in 6.2.1.15.1 is redundant, though, and should be deleted.

*6.2.3: It is incorrect to define an alternative name of a work as a form of title, as 6.2.3.1.1 does, since the variation in the name of the work might also involve the creator’s name. For example, “Verdi, Giuseppe, 1813-1901. Ernani. Libretto. English” is the alternative name for the work identified as “Piave, Francesco Maria, 1810-1876. Ernani. English”. Alternative names for works are therefore variant access points, not variant titles, and don’t belong here. CAML feels that proposed 6.2.3.3.2 for cadenzas should be moved under 6.28.4 with other variant access points for musical works, and that proposed 6.2.3.3.3 should be relocated under 6.27.4 with general variant access points.

Some adjustments would be needed because 6.27.4 and 6.28.4 don’t provide for the possibility of a variant access point with a preferred access point other than that for the creator of the work and don’t support using the title of another work as 6.2.3 proposes to do. Adding these instructions would also entail renumbering the subsequent instructions.

CAML suggests rewording 6.2.3.3.2 as follows in order to 1) clarify that these variant access points are made for cadenzas only when the cadenzas are separate works and are meant to be performed as parts of specific musical works (as opposed to being interchangeable), 2) clarify in paragraph c) that the title of the movement is always included when the cadenza is written for a specific movement, even if no other movement includes a cadenza, and 3) specify in paragraph c) how the preferred title for the movement is formulated, as it is done for other parts of the access point.

6.28.4.4 Variant access point representing a cadenza

6.28.4.4.1 Construct a variant access point representing a cadenza written to be performed as part of a separate musical work. For cadenzas, construct the alternative name for a work by combining in this order:

   a) the preferred access point for the composer of the larger musical work for which the cadenza was written, formulated according to the guidelines and instructions given under 9.19.1, 10.10.1, or 11.12.1, as applicable

   b) the preferred title for the larger musical work for which the cadenza was written, formulated according to the instructions given under 6.15.1

   c) the preferred title for the movement of the larger musical work for which the cadenza was written, formulated according to the instructions given under 6.15.1.8-6.15.1.10, if there is more than one cadenza
d) the term *Cadenza* or *Cadenzas*
e) another distinguishing term if needed.

*(Resource described: Cadenza to Mozart’s Piano concerto in C minor, KV. 491, 1st movement / André Previn)*

Haydn, Joseph, 1685-1759. Concertos, harpsichord, H. XVIII, 11, D major. Cadenzas (Badura-Skoda)
*(Resource described: Kadenzen zum Klavierkonzert in D-dur (Hoboken XVIII: 11) / Paul Badura-Skoda)*

*(Resource described: Cadenzas for the piano sonata in B-flat major, K. 333, third movement, by W.A. Mozart / Wanda Landowska)*

CAML suggests rewording 6.2.3.3.3 as follows in order to clarify that these variant access points are required for librettos only when the librettos or other texts have actually been set to music. CAML also prefers avoiding a term such as “larger work” because CAML doesn’t support the notion that a separately published libretto or text for a musical work is a part of the musical work to which it is related.

6.27.4.4 Variant access point representing a libretto or another text for a musical work
6.27.4.4.1 Construct a variant access point representing a libretto or another text that has been used in a specific musical work. For librettos or other texts, construct the alternative name for a work by combining in this order:
   a) the preferred access point for the composer of the larger musical work, formulated according to the guidelines and instructions given under 9.19.1, 10.10.1, or 11.12.1, as applicable
   b) the preferred title for the larger musical work, formulated according to the instructions given under 6.15.1
   c) the term *Libretto*, *Librettos*, *Text*, or *Texts*, as appropriate
   d) another distinguishing term if needed.

*[examples from 6.2.3.3.3]*

6.2.3.3.2, *Editorial:* Spacing between paragraphs d) and e), and font in 3rd example need to be corrected.

6.2.3.3.3, *Editorial:* In 2nd example, “Canadace A. Magner” should read “Candace A. Magner.”

6.15.0, *Editorial:* In title of instruction and in contents, “a musical works” should read “a musical work.”

*6.15.0.1.2:* It would be helpful to say that preferred titles for musical works are further categorized as distinctive and non-distinctive titles.

6.15.0.3.1: Agree with the proposed revision.
6.15.1: CAML doesn’t agree with the proposed revision. In accordance with our suggestions at 6.15.1.13-6.15.1.16, CAML suggests renaming instructions 6.15.1.13-6.15.1.15 as follows:

6.15.1.13 Complete works Works of various types for one broad medium of performance
6.15.1.14 Complete works Works of various types for one specific medium of performance
6.15.1.15 Complete works Works of one type for one specific medium of performance or various media

6.15.1.2.2: The first sentence should read:
Determine the title to be used as the preferred title for a musical work created before 1501 from modern reference sources.

6.15.1.3.1: Based on 6.15.1.4, CAML can infer that a preferred title, when it is first chosen, may include elements such as a statement of medium of performance, key, date of composition, etc. To clarify this, it would be helpful if the preferred titles given as the last 3 examples, as well as the titles of the resources described for these examples, included such elements.

*6.15.1.3.4: Agree that instruction should be relocated here as an exception to 6.15.1.3.1 but do not agree with revised version of text.

This instruction (originally AACR2 25.27D) is about choosing, as the preferred title, another title than the one that would be chosen per 6.15.1.3.1-6.15.1.3.3 when that title includes the name of a type of composition (e.g. “Sinfonia eroica”) and the work is also known under a non-distinctive title in a numbered sequence of compositions of that type (e.g. “Symphony no. 3”).

As modified by LC, the instruction has seemingly become about recording a sequential numbering when a work belongs to a numbered sequence of compositions with the same non-distinctive title, and the original purpose of the instruction is unfortunately lost. The modification proposed by LC is therefore not acceptable because the original wording of the instruction is necessary to address the problem that it was meant to address and because numbering properly belongs under 6.17 anyway.

CAML suggests keeping the original wording for the most part, revising it slightly to adapt it to its new location and make the language clearer. CAML also suggests adding an example (taken from AACR2 25.27D1):

6.15.1.3.4 If all of a composer’s works with titles the same non-distinctive title (selected according to 6.15.1.3.1-6.15.1.3.3 6.15.1.4) that include the name of a type of composition are also cited as a numbered sequence of compositions of that type with that title, use the name of the type of composition as the preferred title formulate a preferred title using the non-distinctive title and apply the sequential numbering according to 6.17.0.3a.

Symphonies …
(Resource described: Sinfonia eroica. Also called Dritte Symphonie)
6.15.1.4.2g: This instruction states that “an initial article” is to be omitted from the title chosen as the preferred title. However, this instruction is redundant since 6.15.1.4.1 already refers to 6.2.0 which includes 6.2.1.7 Initial articles.

6.15.1.4.3: Agree with the proposed revision. Add the following example to clarify application of paragraph a) in a more complicated situation:

15 kleine Klavierstücke

6.15.1.5: Agree with the proposed revision.

*6.15.1.5.1: Recommend restoring the AACR2 notion of cognate form. If this correction is not made, “Chansons” and “Lieder” in the examples in instruction 6.16.0.12.1 will have to be replaced with “Songs” to conform to the instruction as written. More importantly, a significant number of authorities for music uniform titles might also have to be corrected if the notion of cognate form is not carried over in RDA.

Suggest revising as follows:

6.15.1.5 If the preferred title resulting from the application of 6.15.0 6.15.1.4 is not distinctive, record it in the language preferred by the agency creating the data, if there is one cognate form in the language preferred by the agency creating the data, or if the same form is used in this language. Record the name in the plural unless the composer wrote only one such work with that title.

6.15.1.5.2: Suggest labelling as an exception to 6.15.1.5.1.

6.15.1.7.1: Since continuo realization is more varied today, CAML suggests replacing “usually violoncello and keyboard” with “usually a bass instrument and a chordal instrument.”

*6.15.1.9.1, 1st sentence: Instruction should refer only to 6.15.1.4 as 6.15.1.5-6.15.1.7 do not apply to parts of musical works; reword as follows:

Record the preferred title for a part of a musical work applying the instructions given under 6.15.1.4, as applicable.

6.15.1.9a.1: Suggest that there be a reference to appendix B for abbreviations (cf. 6.14.1.3).

6.15.1.9e.1, Editorial: Alignment needs to be corrected in second example.

6.15.1.12.2: Agree with the proposed revision.

*6.15.1.12.3: Do not support the proposed addition which conflicts with 6.15.1.16.2 and belongs under 6.15.1.16 anyway. See our comment at 6.15.1.13-6.15.1.16 for our suggestion to update 6.15.1.16.2.

*6.15.1.13-6.15.1.16: To be consistent with the general instructions on preferred titles for compilations (6.2.2.11), a distinction should be made between compilations that are the complete

---

1 See definition of continuo in Britannica concise: [http://concise.britannica.com/ebc/article-9361513/continuo]
works of a composer in a given medium or type and those that are incomplete, whether for one or various types or for one or various media. When the compilations are incomplete, the instructions should mandate to record the preferred title for each of the works in the compilation and, as an alternative, to record a conventional collective title instead of, or in addition to, the title for the individual works. Suggest rewording as follows:

6.15.1.13 **Complete works Works of various types for one broad medium of performance**

6.15.1.13.1 For a compilation containing musical works of various types that consists of, or purports to be, the complete works of a composer in for one broad medium by a single composer, record the designation of that medium as the conventional collective title.

*examples from 6.15.1.13.1*

Alternative:

6.15.1.13.2 If the works are of a single type, apply the instructions given under 6.15.1.15. For a compilation consisting of two or more but not all of a composer’s musical works of various types for one broad medium, record the conventional collective title followed by Selections.

6.15.1.14 **Complete works Works of various types for one specific medium of performance**

6.15.1.14.1 For a compilation containing musical works of various types that consists of, or purports to be, the complete works of a composer in for one specific medium by a single composer, record a conventional collective title generally descriptive of that medium.

*examples from 6.15.1.14.1*

Alternative:

6.15.1.14.2 If the works are of a single type, apply the instructions given under 6.15.1.15. For a compilation consisting of two or more but not all of a composer’s musical works of various types for one specific medium, record the conventional collective title followed by Selections.

6.15.1.15 **Complete works Works of one type for one specific medium of performance or various media**

6.15.1.15.1 For a compilation containing musical works that consists of, or purports to be, the complete works of a composer in a particular type, or the complete works of a composer in a particular type for one specific medium by a single composer, record the name of that type as the conventional collective title.

*examples from 6.15.1.15.1*

Alternative:
6.15.1.15.2 For a compilation consisting of two or more but not all of a composer’s musical works of various types of one type for one specific medium or various media, record the conventional collective title followed by Selections.

6.15.1.15.2

If the works are for one specific medium of performance compilation consists of a consecutively numbered group, record the medium (see 6.16) inclusive numbering following the name of the type unless the medium is obvious.

Sonatas, piano, no. 6-10
(Resource described: Sonates pour piano 6 à 10 / Alexandre Scriabine)

Symphonies, no. 1-3
(Resource described: First, Second, and Third symphonies / Ludwig van Beethoven)

6.15.1.16 Other compilations

6.15.1.16.1 For a compilation containing:

a) various types of composition that consists of two or more but not all of a composer’s musical works for one broad or specific medium or
b) two or more but not all of a composer’s musical works of one type for one specific medium or various media or
c) various types of compositions for various instrumental and vocal media by a single composer, identify each of the works in the compilation separately applying the instructions given under 6.28.1.

Alternative:

6.15.1.16.2 Instead of (or in addition to) recording the preferred title of each of the works in the compilation, for a compilation containing various types of composition for various instrumental and vocal media by a single composer, record a the conventional collective title as instructed under 6.15.1.12-6.15.1.15, as applicable, followed by Selections or the inclusive numbering (see 6.17) if the compilation consists of a consecutively numbered group.
Sonatas, piano, no. 6-10
(Resource described: Sonates pour piano 6 à 10 / Alexandre Scriabine)

Symphonies, no. 1-3
(Resource described: First, Second, and Third symphonies / Ludwig van Beethoven)

Note on medium and numeric designation in 6.15.1.15.2: CAML realizes that medium and numeric designation should theoretically be considered as additions to the preferred title for the compilation and would belong in 6.28. This is indeed where the instruction on medium for compilation titles was originally located. But since these elements can’t be addressed separately from the term Selections, CAML suggests that they be included in 6.16.

6.15.2.5.1: In order to apply 6.15.2.3.4 and conform to the instructions in preceding sections (e.g., 6.15.1.4.2 and 6.28.1.7.1), the examples should be revised to read:

Nouveaux quintetti, op. 45
(Preferred title recorded as: Quintets, oboe, violins, viola, violoncello, G. 431-436)

Songs, airs, duets, and choruses in the masque of King Arthur
(Preferred titled recorded as: King Arthur)

*6.16: Medium of performance is required when the preferred title for the work is not distinctive, even if there is no need to differentiate the work with another work with the same title. Suggest the following rewording:

Medium of performance is required when needed to differentiate a musical work from another work with the same title, or when the preferred title for the work is not distinctive.

6.16.0: Agree with the proposed revision.

6.16.0.1.1: Agree with the proposed revision.

6.16.0.3.1: Agree with the proposed revision.

*6.16.0.3.2: Agree with the proposed revision. CAML suggests however correcting paragraph a) to clarify the instruction. CAML also strongly believes that this instruction can’t be applied if no order is prescribed within categories of instruments that may include more than one instrument. Our preference is for the conventional score order. CAML strongly supports stipulating the order of instruments within categories and suggest rewording as follows:

6.16.0.3.2 Record the elements in the following order:

a) when there is only one non-keyboard instrument, etc.:

voice(s)

non-keyboard instrument (including media other than voices, or instruments or electronics)
keyboard instrument
continuo
electronics

b) when there is more than one non-keyboard instrument
voices

keyboard instrument(s) (in conventional score order)

other instruments, etc. (including media other than voices, or instruments or electronics) (in conventional score order)

continuo
electronics

6.16.0.3.2, Editorial: In a) and b), either “voice(s)” or “voices” should be used, but not both.

*6.16.0.3.3: This instruction is actually an exception to the exception at 6.28.1.6.2a and should be relocated there. See our comment at 6.28.1.6.2. In the example, “alto” should be replaced with “contralto” to respect 6.16.0.10.1.

6.16.0.3.4, 6.16.0.3.5 and 6.16.0.3.6: Suggest deleting these instructions since they add nothing more to the general instruction at 6.16.0.3.1, which already says to apply 6.16.0.4-6.16.0.14.

*6.16.0.4: Lifting the restriction on the number of elements and limiting the use of terms for groups of instruments to a few exceptional situations has the benefit of establishing a basic principle according to which all the instruments are listed in the medium. This is unfortunately not reflected in this instruction whose complex wording might have been appropriate in AACR2 but is no longer needed in RDA. The basic principle needs to be stated clearly, now that it can be, and instructions on standard combinations of instruments (6.16.0.5) and group of instruments (6.16.0.7) should consequently be clearly identified as exceptions to that basic principle. The treatment of continuo (6.16.0.6.4) and percussion instruments (6.16.0.7) can also be viewed as exceptions to that principle. CAML therefore suggests rephrasing 6.16.0.4.1 as follows:

6.16.0.4.1 For instrumental music intended for one performer to a part, record each instrument following the instructions given under 6.16.0.6 the medium of performance in one of, or a combination of, the following ways (in this order of preference):
   a) by certain standard chamber music combinations (see 6.16.0.5)
   b) by individual instruments (see 6.16.0.6)
   e) by groups of instruments (see 6.16.0.7).

Exceptions:

6.16.0.4.2 For more than one percussion instrument, use percussion if the names of the individual instruments are not specified by the composer in the original title.
6.16.0.4.3 Use continuo for a thorough bass part, with or without figures, realized or
unrealized, whether it is named as basso continuo, figured bass, thorough
bass, or continuo.
[Formerly 6.16.0.6.4]

6.16.0.4.4 If the work is for a standard combination of instruments, follow the
instructions given under 6.16.0.5.

6.16.0.4.5 If the medium includes instruments designated only by the name of their
family by the composer or in any other source, or acting as an accompanying
ensemble, follow the instructions given under 6.16.0.7.
[The wording here reflects the suggestions CAML makes below under
6.16.0.7.]

If this approach is taken, it would make more sense to interchange the position of 6.16.0.5 and
6.16.0.6 so that individual instruments are addressed first, before standard combinations of
instruments.

*6.16.0.5.1: Wording indicating that the terms in the column on the right are to be used when the
preferred title as recorded after applying 6.15.1.4 is Trio, Quartet or Quintet is missing. Suggest
correcting as follows:
   If the preferred title as recorded resulting from the application of 6.15.1.4 is Trio,
   Quartet, or Quintet (or the plural), and the work is for one of the following standard
   chamber music combinations, use the terms given in the column on the right.

CAML suggests clarifying, by using italics, footnotes or otherwise, that the terms in parentheses
in the column on the left are meant to explain what the combination is and are not part of the
terms to be employed in the statement of medium.

*6.16.0.5.2: CAML suggests 1) clarifying that the preferred title that this instruction refers to is
the preferred title as recorded after applying 6.15.1.4, not the preferred title chosen per 6.15.1.3
and 2) correcting the wording so that the instruction applies only when the preferred title is not
Trio, Quartet or Quintet (or the plural) (not all preferred titles that don’t include Trio, Quartet or
Quintet (or the plural) are meant to be covered by this instruction). Suggest the following
correction:
   If the preferred title resulting from the application of 6.15.1.4 does not include Trio,
   Quartet or Quintet (or the plural), record the name of the standard combination as given
   in the left column above.

*6.16.0.5.3: Suggest deleting as it states the basic instruction that CAML proposes at 6.16.0.4.1.

6.16.0.6: Add the following reference at the end of this section, possibly under 6.16.0.6.6 (see our
comment at 6.16.0.6.6):
   If there is more than one particular instrument, follow the instructions under 6.16.0.14.

6.16.0.6.1 (9th example), Editorial: “Or” in “(not bass viol or gamba)” should be italicized.

*6.16.0.6.3: CAML supports keeping the range designation in the name of an instrument (e.g.
bass clarinet) when there is only one such instrument in the medium but believe that it would be
preferable to omit it when the same instrument would be recorded in the medium more than once with different range designations or with and without a range designation (e.g. in the case of works such as Duo for soprano and alto saxophones by Gordon Jacob, Four fantasies for saxophone quartet (soprano, alto, tenor, baritone) by Michael Short or Sonata for 3 trombones (alto, tenor & bass) (2001) by Ivan Jevtic). CAML would therefore recommend that an exception be introduced to address these situations.

*6.16.0.6.4:* Suggest relocating under 6.16.0.4 (see our comment at 6.16.0.4).

*6.16.0.6.5:* Suggest revising as follows to reinstate the last sentence of this instruction as appearing in the original 5JSC/LC/12:

….choose the instrument for which the major portion of the composer’s works were intended and record specify ….. If no keyboard instrument predominates record keyboard instrument as the medium of performance in all medium statements.

*6.16.0.6.6:* Suggest deleting because it repeats the general instruction that CAML proposes at 6.16.0.4.1 and instruction 6.16.0.7.1.

If our suggestion is not accepted, suggest correcting as follows to clarify that the priority source for the names of the instruments is the composer’s original title of the resource, as LC’s wording implies:

Use names of electronic instruments if designated by the composer given in the resource or in any other source; otherwise, record use electronics.

*6.16.0.7:* CAML doesn’t support using terms for groups of instruments whenever instruments are not specifically stated in the preferred source of information, even when all the instruments could be ascertained. Relying on the wording on the preferred source of information would introduce inconsistencies, such as in the case of Roy Harris’ Chorale for organ and brasses, where the medium statement would be “organ, brasses,” and not “organ, trumpets (3), horn, trombone,” even though we know the specific medium. “Strings” or its equivalent in other languages is also often used by composers to mean “string orchestra;” respecting the principle of representation in those cases would produce undesirable results.

CAML prefers restricting the usage of terms for groups of instruments to cases when a more specific medium is not at all indicated by the composer or is not available from any other source. Percussion instruments have to be treated differently, though, and should therefore be excluded from this instruction (see our comment at 6.16.0.4).

CAML also feels that more specific guidance should be given on when terms such as “string ensemble,” “wind ensemble,” etc., are to be used since their meaning is very close to terms like “strings,” “winds”, etc.

CAML suggests rewording 6.16.0.7.1 as follows and adding a new instruction at 6.17.0.7.2 to cover terms incorporating the word “ensemble.” The wording of this new instruction is based on the current practice, which is to restrict the use of terms incorporating the word “ensemble” to cases when the group acts as an accompanying ensemble. Adding this instruction would entail renumbering the subsequent instructions.

6.16.0.7.1 Record one of the following terms in the language of the cataloguing agency for a group of instruments with one performer to a part when no more
specific medium is indicated by the composer, or is available from any other source given in the preferred source of information:

- woodwinds
- brasses
- winds (for woodwinds and brasses)
- percussion
- plucked instruments
- keyboard instruments
- strings
- instrumental [string, wind, etc.] ensemble
- electronics

6.16.0.7.2 Record a term incorporating the word ensemble for a group of instruments with one performer to a part when the group acts as an accompanying ensemble:

- instrumental ensemble
- string ensemble
- percussion ensemble
- guitar ensemble

6.16.0.7.3: Agree with the proposed revision.

6.16.0.8: Agree with the proposed revision.

6.16.0.8.1: Agree with the proposed revision.

*6.16.0.8.3: Suggest removing the label as an exception and deleting the reference to vocal ensembles since the scope of 6.16.0.8 is instrumental music. Suggest revising as follows for consistency with wording at 6.16.0.3.4 and 6.16.0.14.1:

If there is more than one part for a particular instrumental or vocal ensemble, follow the instructions given under 6.16.0.14.

*6.16.0.9.1-6.16.0.9.4: CAML notes that 6.16.0.9.2 includes an instruction to apply 6.16.0.4-6.16.0.8 in recording the name of the solo instruments but that an equivalent instruction is lacking in 6.16.0.9.1. We also note that instructions to apply 6.16.0.4-6.16.0.8 in recording the name of the accompanying ensemble are missing as well. Suggest that these inconsistencies could be corrected and that this section could be considerably simplified if a reference to 6.16.0.14 was added at the end of 6.16.0.6 (see our comment at 6.16.0.6) and if 6.16.0.9.1 was revised as follows:

For a work for one or more solo instruments and accompanying ensemble, record the name of the solo instrument or instruments and the name of the accompanying ensemble in that order, applying the instructions given under 6.16.0.4-6.16.0.8.

6.16.0.9.2 could then be deleted and its examples moved under 6.16.0.9.1. 6.16.0.9.3-6.16.0.9.4 could also be deleted as they would no longer be necessary. The general instruction to apply 6.16.0.4-6.16.0.8 would make the reference to 6.16.0.6.2 that is 6.16.0.9.4 redundant; as for the reference to 6.16.0.14 that is provided for at 6.16.0.9.3, it would already be included at 6.16.0.6.3.

Suggest adding the following example to illustrate a situation covered by 6.16.0.9.4.
piano, 3 hands
orchestra
*(Preferred title: Concertos)*
[LCCN n 85272526]

6.16.0.10.1: Suggest moving the first example under 6.16.0.14.1 where it is more appropriate.

*6.16.0.10.3:* If the limitation on the number of instruments or voices named in the medium is to be lifted in access points, then the following wording originally proposed by LC in 5JSC/LC/12 must be added at the end of the instruction: “if no specific voice types or registers can be ascertained.” Without it, one couldn’t use any combination of the terms in 6.16.0.10.1, e.g. *soprano, mezzo-soprano.*

6.16.0.10.5: Suggest labelling as an exception and rewording as follows:

*Exception:*

6.16.0.10.5 For compositions that include solo voices with chorus, do not record the medium for the solo voices only the appropriate terms for the chorus (see 6.16.0.11) and the accompaniment, if any.

*6.16.0.11:* Suggest adding the following instruction to fill a gap in RDA:

6.16.0.11.3: If there is more than one part for a particular choral ensemble, use the name of the ensemble (e.g., choruses, women’s choruses) and apply the instructions given under 6.16.0.14.

*6.16.0.12.1:* The phrase “conventional collective title” is not appropriate because this instruction applies to individual as well as collective titles. Suggest rewording as follows:

6.16.0.12.1 If the preferred title for a work (other than one in a “popular” idiom) resulting from the application of 6.15.1.4 is a conventional collective title such as *Songs, Lieder,* etc. (see 6.15.1.15) and the vocals are to be accompanied by anything other than a keyboard stringed instrument alone, record the name of the accompanying instrument or instruments and *accompaniment.* If such a work is not accompanied, record *unaccompanied.*

Add an example with an ensemble as accompaniment.

instrumental ensemble accompaniment
*(Preferred title: Songs)*
[LCCN no2005114789]

This instruction applies only when the voice type or register is omitted per 6.28.1.6.2. Suggest adding an exception to provide for cases when the full medium is included.

*Exception:

6.16.0.12.2 If the composer names a specific voice type or register in the original title, record the medium for the accompaniment applying the instructions given under 6.16.0.4-6.16.0.8.

*Note on examples:* If our suggestion at 6.15.1.5.1 to restore the AACR2 notion of cognate form is not accepted, replace “Chansons” and “Lieder” in the examples with “Songs.”
6.16.0.13.1: Suggest correcting the first paragraph as follows to clarify that the priority source for that information would be the composer’s original title, not the title of the resource as LC’s wording implies.

If the medium of performance, or any part of it, is not stated specifically by the composer in the resource or in any other source, or if it is unspecified, record that part of the medium element in the following order of priority:

Suggest replacing “give” in paragraphs a), b) and c) with “record.” In paragraph a), suggest connecting the instruction with instructions 6.16.0.7.1 and 6.16.0.10.3-6.16.0.10.4 as follows:

a) If only the family of instruments (see 6.16.0.7.1) or voices (see 6.16.0.10.3-6.16.0.10.4), or a collective term for other media, is indicated by the composer, or is available from any other source, give the family, collective term, etc.

Also suggest adding an example with a family of instruments:

- woodwinds (2)
- (Preferred title: Duets)
- [LCCN no 97076964]

In the last example of paragraph b), it is not clear if “bass” means “continuo,” as it was often the case in the Baroque era, or “bass instrument.” Since using “bass” for “continuo” would contradict 6.16.0.6.4, suggest replacing with “bass instrument.”

6.16.0.13.1, Editorial: Spacing in first example needs to be corrected.

*6.16.0.13.2-6.16.0.13.3: These instructions are in the wrong order. 6.16.0.13.2 is an exception to 6.16.0.13.3 and should appear after it. The numbering should be adjusted to reflect the new order.

6.16.0.13.2, Editorial: “Voices” in the second sentence should be italicized.

*6.16.0.13.3: Suggest deleting paragraph b) since it is about works with indeterminate medium, which are already provided for under 6.16.0.13.1. Wording of paragraph c) has to be adjusted because it is not grammatically correct if is it to follow the first sentence of the instruction. Suggest renumbering (see comment at 6.16.0.13.2-6.16.0.13.3) and rewording as follows:

6.16.0.13.2

Do not record a statement of medium of performance in the case of:

a) a work (especially of the Renaissance period) intended for performance by voices and/or instruments;

b) an instrumental chamber work for which the precise medium is not clearly defined and cannot be ascertained from any other source;

be) a work for which no medium of performance is specified by the composer and none can be ascertained from any other source.

6.16.0.14: Agree with the proposed revision.

*6.16.0.14.1: Suggest relocating first example from 6.16.0.10.1 under this instruction, where it is more appropriate.
6.16.0.14.1, Editorial: Spacing in first, third and fifth examples needs to be corrected.

6.16.0.14.2: Agree with the proposed revision.

6.16.0.14.3: Suggest correcting as follows to clarify that the priority source for that information would be the composer’s original title, not the title of the resource, as LC’s wording implies.

For electronics or percussion, do not record the number of performers even if indicated by the composer in the resource or in available from any other source.

*6.17: Numeric designation is required when the preferred title for the work is not distinctive, even if there is no need to differentiate the work with another work with the same title. Suggest the following rewording:

Numeric designation for a musical work is required when needed to differentiate a musical work from another work with the same title, or when the preferred title for the work is not distinctive.

6.17.0: Agree with the proposed revision.

6.17.0.1.1: Agree with the proposed revision.

6.17.0.2.1: Agree with the proposed revision.

6.17.0.3: Agree with the proposed revision.

*6.17.0.3a.1: Suggest the following correction:

6.17.0.3a.1 If works with the same title and the same medium of performance are consecutively numbered in music reference sources, record the numeric designation number.

6.17.0.3a.2: Agree with the proposed revision. For consistency with other instructions, suggest however replacing “numerical designation” with “numeric designation.”

*6.17.0.3c.1: CAML queries if the instruction to record a thematic index number in preference to a serial number and/or opus number would be appropriate in a scenario 1 implementation. In work records, it would indeed be helpful to record serial numbers and opus numbers as well as thematic index numbers in order to identify a musical work. This instruction is still needed for access points, though. CAML suggests that a way to address this problem could be to establish serial number, opus number and thematic index number as separate elements. This way, each number could be listed separately as additions under 6.28.1.6.1 and 6.28.1.7.3, and exceptions stipulating to record a thematic index number in the access point in the absence of, or in preference to, the other numbers could then be added under 6.28.1.6 and 6.28.1.7.
6.18: Key is required when the preferred title for the work is not distinctive, even if there is no need to differentiate the work with another work with the same title. Suggest the following rewording:

   Key is required when needed to differentiate a musical work from another work with the same title, or when the preferred title for the work is not distinctive.

6.18.0.1.1: Agree with the proposed revision.

*6.18.0.3.1: Agree with the proposed revision. Suggest however specifying the language of the element as follows:

   6.18.0.3.1 Record the key (i.e., its pitch name and its mode if it is major or minor) in the language preferred by the agency preparing the data if one or more of the following conditions applies:

6.19.0: Agree with the proposed revision.

6.19.0.4: Add a reference to 6.19.0.6 since vocal scores and chorus scores are arrangements, e.g.:

   Exception
   6.19.0.4.4 For vocal scores and chorus scores, see 6.19.0.6.

6.19.0.7: Agree with the deletion of the instruction.

6.27.1.2.4: Agree with the proposed revision.

6.27.3.1: Instructions should specify the order in which the elements are to be added. Suggest adding a reference to 6.28.3.0 for expressions of musical works (similar in purpose to the reference at 6.17.1.9). As well, use wording as at 6.27.1.5 and 6.27.1.6 as follows:

   If it is considered important for identification to name a particular expression, construct an access point representing a particular expression of a work or a part or parts …

6.27.3.2: Agree with the proposed revision.

6.28.1: Agree with the proposed revision. Suggest deleting 6.28.1.2 and 6.28.1.4 and renumbering subsequent instructions.

6.28.1.0.1: Agree with the proposed revision. Suggest deleting b) and d) and renumbering subsequent instructions.

6.28.1.0.7: Agree with the proposed revision.

*6.28.1.1: Agree with the proposed revision. Suggest however adding a new instruction for collaborative works to parallel 6.28.1.3.3 and fill a gap in RDA, e.g.:

   6.28.1.1.2 If two or more composers have collaborated in the work, follow the instructions given under 6.27.1.2.

Adding this instruction would entail renumbering the subsequent instructions.

*6.28.1.1.2: Agree with the proposed revision. Suggest however adding a new instruction for collaborative works to parallel 6.28.1.3.3 and fill a gap in RDA, e.g.:
6.28.1.1.3 If two or more composers have collaborated in the work, follow the instructions given under 6.27.1.2.

Adding this instruction would entail renumbering the subsequent instructions.

6.28.1.1.3b.1, Editorial: Correct the font of the beginning parenthesis of the explanatory text.

*6.28.1.1.3c.1: Suggest that it would be more consistent with 6.2.2.10.2 and 6.28.2.3.2 to construct preferred access points for each of the excerpts using the preferred access point for the work as a whole as an alternative.

6.28.1.1.3d: Agree with the proposed revision.

6.28.1.1.3d.1, Editorial: Example at sub-paragraph b), should the question mark appear after “amar”? If so, the question mark should also appear in the explanatory text to the example.

*6.28.1.1.4: Agree with the proposed revision. Suggest however adding a new instruction for collaborative works to parallel 6.28.1.3.3 and fill a gap in RDA, e.g.:

   6.28.1.1.5 If two or more composers have collaborated in the work, follow the instructions given under 6.27.1.2.

*6.28.1.2: Suggest deleting this instruction which is already covered by general instructions on compilations.

*6.28.1.3: CAML believes that category a) would be better defined if the wording stated the main attribute of the works belonging to it (i.e. the fact that they are modifications incorporating new material) instead of simply giving instances of these works. CAML doesn’t consider that works described as based on other works belong in the same category as modifications incorporating new material so CAML suggests that they be in their own category.

CAML is concerned that paragraph d) will be very difficult if not impossible to apply for sound recordings that comprise two or more works, either by a single or by different composers. In order to know if this instruction applies in these cases, a cataloguer will have to determine the level of creative responsibility by the performer(s) for each work in the compilation to determine if instruction 6.28.1.3 d) should apply to all of them and, consequently, to the resource as a whole. Except for Western art music, it is usually not possible to determine if the performances involve "substantial creative responsibility for adaptation, improvisation, etc., on the part of the performer(s)" just by examining the resource; most often, the only way to tell is to listen to the works recorded, provided that one knows the works well enough already. CAML is concerned that this approach will not prove workable. CAML therefore doesn’t agree that paragraph d) should pertain to single works but only to recorded albums. Restricting this category to recorded albums would also help make the decision process simpler since the preferred access point for compilations by a single composer would always be the composer (including performing groups acting as composers). CAML strongly recommends, however, that this category, as rephrased to apply to recorded albums, be located in a new instruction 6.28.1.6 on compilations of works by different composers.

CAML therefore suggests the following changes:

   6.28.1.3.1 Apply the instructions given below for an adaptation that falls into one or more of the following categories:
a) modifications of other musical works incorporating new material (e.g., free transcriptions) arrangements described as freely transcribed, based on, etc., and other arrangements incorporating new material
b) paraphrases of various works or of the general style of another composer
c) musical works based on other music (e.g., variations on a theme)
de) modifications in which the harmony or musical style of the original has been changed, provided that the original work belongs to an idiom where the harmony is intended to remain the same with each performance (e.g., a work that belongs to the category of Western art music)
d) performances of musical works involving substantial creative responsibility for adaptation, improvisation, etc., on the part of the performer or performers
e) modifications in which the musical style of the original has been changed, any other distinct alteration of another musical work

Note: CAML believes that the examples given in parentheses in categories a) and c) are necessary to make the instructions easy to understand.

CAML recommends that an exception be introduced stipulating that changes in musical style would not be considered adaptations when both the original work and the modified work belong to the category of works whose form, medium of performance, text, etc., is intended to change with each performance. In other words, adapting an opera excerpt in the jazz idiom would result in a new work but doing the same for a popular song or adapting a folk song in the popular idiom would not. CAML doesn’t have a specific wording to propose however, nor does CAML knows what would be the best way to incorporate this exception in RDA.

If our suggestion to add a new instruction 6.28.1.6 for compilation of performances of musical works is not accepted, suggest making the following changes:

6.28.1.3.1 Apply the instructions given below for an adaptation that falls into one or more of the following categories:

a) modifications of other musical works incorporating new material (e.g., free transcriptions) arrangements described as freely transcribed, based on, etc., and other arrangements incorporating new material
b) paraphrases of various works or of the general style of another composer
c) musical works based on other music (e.g., variations on a theme)
de) modifications in which the harmony or musical style of the original has been changed, provided that the original work belongs to an idiom where the harmony is intended to remain the same with each performance (e.g., a work that belongs to the category of Western art music)
e) modifications in which the musical style of the original has been changed, any other distinct alteration of another musical work
f) compilations of performances of musical works by more than one composer that involve involving substantial creative responsibility for adaptation, improvisation, etc., on the part of the performer or performers.

6.28.1.3.2: Agree with the proposed revision.
6.28.1.3.3: If instruction is kept, add parallel ones for other categories of collaborative works, when appropriate (see our comments at 6.28.1.1, 6.28.1.1.2 and 6.28.1.1.5).

*6.28.1.3.4: The use of “commonly cited” is problematic. CAML suggests that this instruction be reworded, using a wording consistent with 6.28.1.1.3d.2, as follows:

If the name of the composer of the adaptation is unknown, adaptation is commonly cited by title, use the preferred title for the adaptation as the preferred access point representing the work.

The example is that of an arrangement (see Full draft under 20.2.1.3, p. 9), not of an adaptation. Substitute the following example:

Yankee Doodle

(Variations for piano on the patriotic song; name of the composer of the adaptation unknown.)

*6.28.1.3.5: The wording of 6.28.1.3.5 implies that a work that is not an adaptation is necessarily an arrangement. Not all expressions are arrangements, though, since modifications might not be accompanied by a change in medium and since some changes of medium might not be treated as arrangements. CAML therefore suggests rewording the instruction as follows:

6.28.1.3.5 In case of doubt about whether a work is an adaptation that is a new work or an arrangement, etc., that is a new expression of a previously existing work, treat it as a new expression (see 6.28.3.1).

*6.28.1.4: CAML considers that the works covered by this instruction are expressions and suggest that the instruction be relocated under 6.28.3. CAML feels that the wording should be modified so as to fit the new location better and propose the following:

Construct the preferred access point representing a work where the text, plot, setting, or other verbal element was substantially modified or where a new text was substituted, and which bears a new title, by adding the new title (enclosed in parentheses) to the preferred access point representing the work.

Strauss, Johann, 1825-1899. Fledermaus

Strauss, Johann, 1825-1899. Fledermaus (Champagne sec)

[remaining examples of 6.28.1.4]

If the wording CAML suggested is not accepted, CAML suggests correcting as follows, to avoid using a term such as “adaptation” which is not appropriate for expressions:

If the text, plot, setting, or other verbal element of a musical work is adapted or if a new text is supplied, and the title has changed, construct the preferred access point representing the expression work by combining (in this order):

a) the preferred access point representing the original work
b) the new title of the adaptation (enclosed in parentheses).

Strauss, Johann, 1825-1899. Fledermaus

Strauss, Johann, 1825-1899. Fledermaus (Champagne sec)

[remaining examples are correct and not transcribed]
There appears to be inconsistency as to when punctuation instructions are given. Punctuation instructions to enclose in parentheses the title of the adaptation are given but not at other similar instructions that refer to additions (cf. 6.28.3.1).

Not sure why the 1st example has been given. The examples should only illustrate the element specified in the preceding instruction.

6.28.1.5.1: Agree with the proposed revision.

6.28.1.9: Agree with the deletion of this instruction.

*6.28.1.6 NEW: Propose adding the following new instruction:

6.28.1.6 Compilations of performances of musical works by different composers

6.28.1.6.1 If the work is a compilation of performances of musical works by different composers and the performances involve substantial creative responsibility on the part of the performer, construct the preferred access point representing the work by combining (in this order):

a) the preferred access point representing the performer, formulated according to the guidelines and instructions given under 9.19.1, 10.10.1, or 11.12.1, as applicable

b) the preferred title for the compilation, formulated according to the instructions given under 6.15.

[new examples would have to be provided]

6.28.1.6.2 If there is more than one performer, construct the preferred access point for the work following the instructions given under 6.27.1.3.

Adding new instruction 6.28.1.6 would entail renumbering the subsequent instructions.

6.28.1.6: Agree with the proposed revision. However, for consistency, suggest correcting as follows:

Additions to access points representing for musical works with titles that are not distinctive

*6.28.1.6.1: Suggest moving here the following 3 examples now at 6.28.1.6.2a since CAML suggests not repeating the general instruction at 6.28.1.6.1 as an exception to the exception at 6.28.1.6.2 (see comment at 6.28.1.6.2).

Widor, Charles Marie, 1844–1937. Symphonies, organ
Raff, Joachim, 1822–1882. Sinfonietta, woodwinds, horns (2), op. 188, F major
Goehr, Alexander, 1932–. Songs, clarinet, viola accompaniment

CAML suggests not keeping the Rapf example (Rapf, Kurt. Requiem, organ, brasses, percussion) because it contradicts current practice of considering distinctive a title such as “Requiem” when the work is not a work of the type normally designated by the term used as the title. CAML suggests substituting this example:

Pender, Scott. Chorale preludes, piano

*6.28.1.6.2: CAML proposes 1) clarifying the wording of paragraph a); 2) deleting the exception to the exception under paragraph a), which is extraneous because it only restates the general rule;
3) relocating 6.16.0.3.3 as an exception under paragraph a); 4) deleting paragraph c) because this situation is covered under 6.16.0.13.3c; 5) rewording paragraph d) as at 6.28.1.6.3c since it is odd to have a see reference to an instruction as part of an example although this does appear this way in AACR2 25.30B1d.

a) the medium is the same as the one implied by the title

[examples from 6.28.1.6.2a; see note below]

If, however, a composer names a specific voice type or register (see 6.16.0.10.1-6.16.0.10.2) in the original title the medium is other than that implied by the title, add the statement.

[remaining examples from 6.28.1.6.2a]

Ayres, Frederic, 1876-1926. Songs, alto, piano, op. 2

Wuorinen, Charles. Songs, tenor, piano

b) the work consists of a set of compositions for different media, or is one of a series of sets of compositions with the same title but for different media

[examples from 6.28.1.6.2b]

c) the medium was not designated by the composer

c) the complexities of stating the medium are such that an arrangement by other identifying elements, such as thematic index number or opus number (e.g., thematic index number or opus number, see 6.21) would be more useful.

[examples from 6.28.1.6.2d]

Note on examples from 6.28.1.62a: Only the first 6 examples should be kept; the last 4 examples are no longer necessary under this instruction (see our comment at 6.28.1.6.1). If these are kept for some reason, the Rapf example (Rapf, Kurt. Requiem, organ, brasses, percussion) should be deleted because it contradicts current practice of considering distinctive a title such as “Requiem” when the work is not a work of the type normally designated by the term used as the title. CAML suggests substituting this example:

Pender, Scott. Chorale preludes, piano

6.28.1.6.3: Agree with the proposed revision. Spacing after “and/or” and alignment of c) needs to be corrected, though.

6.28.1.7: Agree with the proposed revision. However, for consistency, suggest correcting as follows:

Additions to access points representing for musical works with distinctive titles

6.28.1.7.1: Agree with the proposed revision.

6.28.1.12: Agree with deleting this instruction provided that its content is relocated under 6.15.1.15 as we do not agree that the proposed revisions to instructions on medium of performance make the instruction unnecessary (see our comment at 6.15.1.13-6.15.1.16).

6.28.2.2.1: Suggest correcting as follows:

…. formulated according to the instructions given under 6.15.1.4 6.15.1.8-6.15.1.10.
6.28.2.3.1: Suggest correcting as follows:
   …. formulated according to the instructions given under 6.15.1.4 6.15.1.10.

*6.28.2.4: The title of the instruction is misleading. The instruction is not about identifying two or more parts of a musical work contained in a resource but about making additions to access points for parts of a musical work that would otherwise be identical. For consistency with other additions to access points, suggest rewording as follows:
   Additions to access points representing parts of a musical work

If this suggestion is accepted, the contents at 6.28.2 would need to be corrected as well.

*6.28.2.4.1: CAML suggests rewording this instruction to correct an oversight in AACR2. As written, the instruction could not be used to distinguish titles of parts that consist of the same general term when the parts are also numbered, even when the numbers of the parts could be used to make the access points unique. CAML also suggests adding examples to emphasize the change in wording.
   6.28.2.4.1 If a part of a musical work is designated by the same general term as other parts and lacks a number, add to the access point for the part enough of the identifying terms covered in the instructions given under 6.28.1.6–6.28.1.7 as are necessary to distinguish the part.

   Cima, Giovanni Paolo, flourished 1598-1622. Concerti ecclesiastici. Sonata, brasses, violin, continuo
   Cima, Giovanni Paolo, flourished 1598-1622. Concerti ecclesiastici. Sonata, cornett, violin, continuo

   Frescobaldi, Girolamo, 1583-1643. Fiori musicali. Tocata per le levatione, no. 1
   Frescobaldi, Girolamo, 1583-1643. Fiori musicali. Tocata per le levatione, no. 2

6.28.3: Agree with the proposed revision.

*6.28.3.0.1: Agree with the proposed revision.

CAML is concerned that the instruction as written would prevent using elements prescribed under 6.27.3 in conjunction with those prescribed under 6.28.3.1-6.28.3.5. This would be regrettable since musical works would benefit a great deal from the collocating or distinguishing devices provided for at 6.27.3, especially content type.

If combining elements from 6.27.3 with those from 6.28.3.1-6.28.3.5 is allowed in access points, guidance would be needed regarding the position of the terms indicating type of content in the access point in relation with other elements. CAML would favour putting “Type of content” after “arranged” and the language name but before “Sketches,” “Vocal score” (or “Chorus score”) in order to collocate notated music.

6.28.3.1: Add a reference to 6.28.3.4 because vocal socres and chorus scores are arrangements, e.g.:

   Exception
6.28.3.1.4 For instructions on constructing access points for works with arranged accompaniment, see 6.28.3.4.

6.28.3.3.1: Agree with revision of examples. For consistency, suggest correcting as follows:
6.28.3.3.1 Construct the preferred access point representing for a work or part or parts of a work consisting of a composer’s sketches by adding Sketches (see 6.19.0.5) to the preferred access point representing for the work.

6.28.3.4, Editorial: Second Chorus score should read Chorus scores

6.28.3.5: Agree with the deletion of this instruction.

6.28.3.5.2: Agree with the proposed revision.

6.28.4.2.1: Agree with the proposed revision.

6.28.4.2.2: Agree with the proposed revision.

6.28.4.3.1: Agree with the proposed revision.

6.28.4.4.3: Agree with the proposed revision.

6.16.0.1 Scope

Medium of performance is the instruments, voices, etc., for which a musical work was originally conceived.

6.16.0.2 Sources of information

Take information on medium of performance from any source.

6.16.0.3 Recording medium of performance

Record the medium of performance in the language preferred by the agency creating the data, applying the instructions given under 6.16.0.4–6.16.0.14.

6.16.0.3.1 Record the elements in the following order:

a) when there is only one non-keyboard instrument, etc.:

voice(s)
non-keyboard instrument (including media other than voices, instruments or electronics)
keyboard instrument
continuo
electronics

b) when there is more than one non-keyboard instrument

voices
keyboard instrument(s) (in conventional score order)
other instruments, etc. (including media other than voices, instruments or electronics) (in conventional score order)
If there is more than one part for a particular instrument, voice, or ensemble, follow the instructions under 6.16.0.14.

If there is a number of hands other than two for any performer, follow the instructions given under 6.16.0.2.

If the medium, or any part of it, is not stated specifically, is indeterminate, or is unspecified, see 6.16.0.13.

For instrumental music intended for one performer to a part

- For instrumental music intended for one performer to a part, record each instrument following the instructions given under 6.16.0.5.

**Exceptions:**

For more than one percussion instrument, use *percussion* if the names of the individual instruments are not specified by the composer in the original title.

Use *continuo* for a thorough bass part, with or without figures, realized or unrealized, whether it is named as *basso continuo*, *figured bass*, *thorough bass*, or *continuo*.

If the work is for a standard combination of instruments, follow the instructions given under 6.16.0.6.

If the medium includes instruments designated only by the name of their family by the composer or in any other source, or acting as an accompanying ensemble, follow the instructions given under 6.16.0.7.

**Individual instruments**

- When recording an individual instrument, use a term in the language preferred by the agency creating the data whenever possible. Use the following list of terms as a guide. When alternatives are given, choose a term and use it consistently.

  - *cello* or *violoncello*
  - *cor anglais* or *English horn*
  - *double bass* (*not* *bass viol* or *contrabass*)
  - *double bassoon* or *contrabassoon*

     clarinet (*not* clarinet in A)
  2. the names of alternative or doubling instruments.

**6.16.0.5.4**

- For stringed keyboard instruments, if the application of this instruction could result in the separation of a composer’s works for or including stringed keyboard instruments between more than one instrument, such as harpsichord (or clavichord) and piano, choose the instrument for which the major portion of the composer’s works were intended and record that as the medium of performance in all medium statements. If no keyboard instrument predominates record *keyboard instrument* as the medium of performance in all medium statements.

**6.16.0.6.6**

- Use names of electronic instruments if given in the resource or other source; otherwise, use electronics.
