

**To:** Joint Steering Committee for Development of RDA

**From:** Bill Leonard, CCC representative

**Subject: Revision of RDA 6.15.1.3, Recording Medium of Performance**

CCC approves of the addition of an alternative to enable the usage of an externally controlled list. We question, however, the need to provide the note pointing cataloguers to 7.21. The element at instruction 7.21 is Medium of performance of musical content, not the details of medium of performance. It is unusual to refer to a separate element using the text suggested in the final sentence of the addition. That text is usually used when referring to details of the same element.

Nevertheless, if the sentence is approved, we would suggest the following revisions:

Record details of medium of performance if considered to be important for identification or selection (see 7.21).
