

**To:** Joint Steering Committee for Development of RDA  
**From:** Gordon Dunsire, CILIP Representative  
**Subject:** Revision of RDA 6.15.1.3 (Recording Medium of Performance)

CILIP thanks ALA for its proposed revision.

CILIP does not agree with the proposal because it is not necessary.

CILIP believes that existing provisions in RDA are sufficient to meet the rationale of the proposal. These include accommodation for substitute vocabulary encoding schemes in RDA 0.12, and the provision of the RDA vocabularies in Resource Description Framework in the Open Metadata Registry.
