

To: Joint Steering Committee for Development of RDA
From: Christine Frodl, DNB Representative
Subject: RDA Appendix K Revision and Expansion

DNB thanks ALA for this proposal. We agree with the proposal and the suggested changes.

This proposal refers to the concept of affiliation as a relationship, which is the right approach. In contrast, RDA treats affiliation also as an attribute, for example, of the person, at RDA 9.13. We would recommend to clarify this in general.

There seem to be no consistency between the employee relationship at K.2.1.1 under "General Person to Person Relationships" and the new wording for the employee relationship at K.2.3. We would recommend checking those definitions.
