To: Joint Steering Committee for Development of RDA
From: Kevin Marsh, ACOC Representative
Subject: Reorganization of instructions for recording extent (3.4.1.3, 3.4.1.5)

ACOC thanks LC for this proposal to reorganize the instructions for recording extent (RDA 3.4.1.3 and RDA 3.4.1.5).

We support the proposed changes, but think that in the interests of clarity the sentence in the proposed (clean copy) revision of 3.4.1.3 Alternative

If a trade name or other similar specification is not used as a term designating the type of unit, record that information as instructed under 3.20.1.3.

Would read better if written as

If an applicable trade name or other similar specification is not used as a term designating the type of unit, record that information as instructed under 3.20.1.3.
