Subject: Clarification of leaves and pages (3.4.5.2 and Glossary)

ACOC thanks LC for this proposal to provide glossary definitions for ‘leaf’ and ‘page’, and for clarifying their meanings within the context of the instructions.

We support the proposed revisions.

ACOC notes that the definitions provided are not dissimilar to those provided by ACOC as part of the JSC’s work on RDA vocabularies and definitions (3.4.5 Extent of text). Agreement over the definitions provided was delayed pending further clarification between the element Extent and specific terms that are actually identifying the units being counted.
